that began in Havana, Cuba, where her father, Dr. Julio C. Martinez earned his Doctor of Dental Surgery. In 1971, after completing his Doctor of Dental Medicine at the University of Alabama, her father along with her mother, Lilliam, at his side as the dental hygienist, opened the family practice. Dr. Martinez's passion for dentistry was sparked at a young age when she observed how providing exceptional, quality dental care and a confident smile can enrich and change a patient's life. In 2001, she had the privilege of working alongside her parents before their retirement. She is honored to continue her family's legacy and serving the Orlando community. The heartfelt sentiments she receives from patients is one of the most rewarding aspects of this profession - "Your office has a warm, welcoming spirit," "You treat patients like family," and "You have a great staff that has continued the traditions that your father and mother established years ago."
