

Foundation Academy

15304 TILDEN RD, WINTER GARDEN, FL 34787 | (407) 877-2744
FOUNDATIONACADEMY.NET

With a solid 60 years of history, Foundation Academy provides a family-centered environment, an expert approach to education, and a Christian focus to our preschool through 12th grade students in the greater Orlando area. An FA education builds a strong foundation for life—from the inside out.

Our college preparatory curriculum is fully accredited and includes STEAM—science, technology, engineering, arts, and mathematics. Through this approach, teachers can incorporate the latest technology to enhance lessons. Honors classes begin in elementary school and options expand in high school to include a wide selection of Advanced Placement and on-campus Dual Enrollment courses. For the last 6 years, our graduates have achieved 100% college placement, earned over \$10 million in scholarships, and leave our school with completing up to two years of college credits.

Outside the classroom, athletics are offered beginning in kindergarten. Our high school athletes compete as part of the FHSAA and many continue at the collegiate level with athletic schol-

arships. A brand-new athletic complex is under construction at our Upper School and will serve as the home field for football, track, and soccer.

Our Fine Arts Program offers some of the area's top artistic talent, including classically trained artist Mary Ellen Murray and celebrity vocal teacher Mark Goff. Arts begin in preschool and continue through high school, including band, choir, theater, visual art, and digital design. Our Fine Arts Department works in cross-curricular efforts to produce programs such as Fine Arts Night, Christmas musical dinner shows, and superb drama productions.

With two campuses in Winter Garden, our growth continues as we celebrate our 60th birthday! In addition to the athletic complex, we are planning construction of a new fine arts center and additional classroom space. "It's an exciting time to be a part of the Foundation Academy family," said David Buckles, our School President. And it truly is. Come join the Foundation Family as we partner with you in building a spiritually focused and academically competitive foundation for your child!
