

WILLIAM K. FRAVEL  
DMD/PA  
ORTHODONTIC SPECIALIST

## William K. Fravel, DMD Orthodontic Specialist

**SPECIALTY/EDUCATION:** Dr. Fravel graduated with a Doctor of Dental Medicine Degree from the University of Louisville School of Dentistry, then attended an additional two years of schooling to obtain his Orthodontic Specialty Degree. With a practice dedicated to Orthodontics, Dr. Fravel has extensive training and experience in tooth movement. **INNOVATIONS:** Our office provides the latest in orthodontic advancements including self-ligating brackets for shorter treatment times and increased comfort, Invisalign® invisible braces for teens and adults, and low-dose digital imaging. The latest advancement in our office is AcceleDent, a specialized tooth movement system that patients use for 20 minutes a day to shorten treatment time. **WHAT SETS US APART:** We are dedicated to serving the children in our community. With my recent formation of a local non-profit organization—Smile for a Lifetime West Orange—we are providing free treatment to children who otherwise wouldn't have access to care. The Board of Directors for my non-profit recently approved four orthodontic scholarships to area children. I have a commitment to the commu-

nity to provide free treatment to at least six area students per year. This has been such an exciting endeavor for me personally as well as very rewarding for my team and the Board of Directors. There is nothing like changing the life of a child by providing them with a healthy, beautiful smile! **FREE ADVICE:** Orthodontic treatment is an investment of your time, money and trust. Make sure you select a provider who is a specialist in orthodontics and has received extensive training in proper tooth movement. It is also important to select a doctor and office you are comfortable with. You'll be visiting their office frequently while you transform your smile.
