

## Edwin J. Szczepanik, DMD

### Advanced Center of Cosmetic & Implant Dentistry

**SPECIALTY:** Care that focuses on the whole patient. We provide the most advanced materials and techniques in dentistry. Cosmetics, implants, sleep apnea and early childhood development have become a focus of the practice. **EDUCATION/CERTIFICATIONS:** State University of New York at Albany with a Bachelor of Science in Chemistry; Fairleigh Dickinson University Dental School; General Practice residency at UA hospital in Augusta, Georgia, in conjunction with Medical College of Georgia. **PROFESSIONAL MEMBERSHIPS/AFFILIATIONS:** American Dental Association, Florida Dental Association, Dental Society of Greater Orlando, American Academy of Dental Sleep Medicine, Dental Organization for Conscious Sedation, International Congress of Implant Dentistry, International Association for Orthodontics. **GREATEST PROFESSIONAL ACHIEVEMENT:** Being a mentor at the Kois Center for Advanced Dentistry through Science has allowed me to work with dentists from all over the world. I am one of only five such mentors in Florida. I am also a former assistant professor at the Medical College of Georgia and the University of Mississippi Dental School. **INNOVATIONS:** I have recently added treatment for sleep apnea through dental appliances, giving people an alternative to the

cumbersome CPAP machine. A second area of innovation is early childhood diagnosis, seeing patients as early as 5 years old and guiding their teeth into the proper alignment. This allows children to breathe better, sleep better and improves their responses in school. **WHAT SETS US APART:** Treating the total patient, spending time with them on the first and follow-up visits to meet their needs. Having a complete history and gathering all the necessary data allows us to provide the highest quality of care. I spend well over 120 hours in continuing education courses to stay current on the latest innovations in dentistry. **OUR COMMITMENT:** Our motto is "Do it once and do it right." The greatest compliment we get is when another dentist refers patients to us. We treat all our patients as family and provide dental care as we would to our families.
