

Cosmetic & Comprehensive Dentistry, PA

Carl D. Bilancione, DMD

SPECIALTY: General dentistry and family dentistry, with a focus on cosmetic and comprehensive dental care. **EDUCATION AND CERTIFICATIONS:** BS, Biology Honors, Magna Cum Laude, Fairleigh Dickinson University; DMD, Doctor of Dental Medicine, Fairleigh Dickinson; mini-residency in Implant Dentistry at University of Miami School of Medicine. **AWARDS/HONORS:** Award of recognition from the New Jersey Society of Pediatric Dentistry. Inducted into the Pierre Fauchard Academy, an international honor dental society. Mastership status in the American Academy of Implant Prosthodontics and the International Congress of Oral Implantology. **PROFESSIONAL MEMBERSHIPS:** American Dental Association, Florida Dental Association, Central District Dental Society, Greater Orlando Dental Society. **GREATEST PERSONAL ACHIEVEMENT:** Completing the MS ride, twice now, to raise money for and awareness of the dreadful disease. Also, competing on the hit CBS reality show *Survivor: Africa*. **GREATEST PROFESSIONAL ACHIEVEMENT:** Being recognized by colleagues as a "Top Dentist" and being known as a dentist who cares and provides his patients with affordable and comfortable dentistry using the latest technology. **INNOVATIONS:** State-of-the-art Cerec Dental System, which allows porcelain crowns, fillings, and onlays to be crafted and installed in one visit; eliminates impressions and tempo-

raries. Also, Diagnodent, a laser technology that measures the density of the tooth and can uncover decay not yet detectable on X-rays. **WHAT SETS US APART:** Education. I continue to stay abreast of the advances in dentistry. I educate my patients thoroughly using computer monitors and intraoral imaging. I'm a "show and tell" dentist. **OFF-HOURS:** Cooking, cycling, hosting a sports radio show called "Ace and the Doc," travel, wildlife photography. **CHARITABLE WORK:** National Multiple Sclerosis Society, Catholic Charities, Gives Kids the World, New Hope for Kids, Darrell Armstrong Foundation for Premature Babies. **FREE ADVICE:** Your health-care professional should be able to "show and tell." They need to have an intraoral camera to show you your oral environment. In these trying economic times it is important to have confidence in a dentist and a dental team that will put your best interests first.
