

SPECIAL ADVERTISING SECTION

Alexis Shrager, DMD

SPECIALTY/FOCUS: Orthodontics, alignment of teeth for esthetics and function. In reality, I create a sense of achievement and responsibility by improving smiles and self-esteem.

EDUCATION: University of Florida; University of North Florida, accelerated dental school admission; Nova Southeastern University, College of Dental Medicine, Doctorate in Dental Medicine; University of Pittsburgh School Of Dental Medicine, Residency in Orthodontics and Dentofacial Orthopaedics.

AWARDS/HONORS: Graduated with High Honors from Nova Southeastern dental school. **PROFESSIONAL MEMBERSHIPS/**

AFFILIATIONS: American Association of Orthodontists; Diplomate of American Board of Orthodontics; Florida Dental Association; Academy of General Dentistry; Dental Society of Greater Orlando; Southern Association of Orthodontists.

GREATEST PERSONAL ACHIEVEMENT: Married for 15 years with three adorable children. Owner and founder of Champion Orthodontics. I moved from Russia to the U.S. when I was 15 years old. I had no money and spoke no English, and here I am today, sharing what I've learned with the children I meet, every day! **GREATEST PROFESSIONAL ACHIEVEMENT:** "Saving" two years of college by doubling classes. It allowed me to put my time into a specialty degree in Orthodontics and do something I really love two years earlier. **INNOVATIONS:** We use all the latest technology to make patients' treatment more predict-

able and comfortable, and to save time and visits. SureSmile custom wire technology is a hit with adult patients and older teens who appreciate getting out of braces sooner. Invisalign aligners are more popular than ever thanks to recent software advances. Patients who were once told they were not candidates for braces are now being treated and in less time. We now have an oral surgeon and pediatric dentist for all of your children's comprehensive needs. **WHAT SETS HER APART:** I treat my patients as I would treat my children and family. I believe the best doctors are the ones who truly listen and establish a sense of trust, putting patients at ease. A great doctor needs to help people understand how they may better participate in their own care.
