That is very rewarding. **INNOVATIONS:** We use Digital X-rays, Intraoral cameras and monitors positioned above each dental chair for patients to enjoy a movie while receiving their dental services. Our Casey education pro-

gram shows patients each step of the dental procedure they are scheduled to have. Aromatherapy and paraffin hand treatments will be offered soon. **WHAT SETS US APART:** Our practice is family-oriented based on word-of-mouth referrals and we are always accepting new patients. Our patients feel as if they are part of the family and become our good friends. Infection control in our office is also very important to us. Building a foundation of trust by treating our patients as special individuals is vital to our success. **OFF HOURS:** Traveling, walking, cooking, salsa dancing and spending time with my husband and son. **FREE ADVICE:** Having regular checkups and routine cleanings will improve your oral and general health. Postponing dental treatments only makes things worse and more costly.
