At Rollins, we’re top ranked, but you’re No. 1. For 25 consecutive years, U.S. News & World Report has ranked Rollins among the top two regional universities in the South. Our sun-soaked lakeside campus was named the No. 1 most beautiful in the nation, and our Crummer Graduate School of Business has been ranked the No. 1 MBA program in Florida. But the No. 1 we’re most proud of is the one that applies to you. Thanks to an average class size of just 17 students and a 10:1 student-faculty ratio, you get the personalized attention you expect from one of the best liberal arts colleges in the nation.

Rollins is built on a human scale. Here, you’ll find no over-flowing auditoriums, boring lectures, or uninspired professors. At Rollins, our intimate and personalized learning environment is designed to maximize engagement. It’s about application over memorization, mentoring over lecturing, and hands-on research over data downloading. Our students are mentored and challenged by expert faculty every day, helping them develop their personal and professional passions and reach their life and career goals.

Rollins is a future-proof education. At a time when the careers of tomorrow have yet to be invented, our innovative, interdisciplinary education equips you with the expertise to succeed as the world evolves. Along the way, you’ll develop an array of 21st-century skills—from creative problem solving and critical thinking to collaborative teamwork and clear communication—that are not only in demand among today’s top employers, but also immune to the fast-paced fluctuations of our ever-evolving world.

Rollins is an education for the real world. Rollins is among the nation’s best at empowering our students to put their ideas to work in the world. Our students develop a competitive advantage in the job market through top internships in Orlando and beyond, and get a head-start on grad school by collaborating on original research with their professors. In fact, at Rollins, opportunities to hone academic learning in the real world are virtually limitless.

Rollins is globally engaged. At Rollins, you’ll make an impact around the globe. After all, more than 70 percent of students study abroad. From semester and summer-long programs to faculty-led field studies, you’ll explore the world and test your ability to make it better.

Rollins is always investing in our mission. With such lofty accolades, some colleges might rest on their laurels—not Rollins. We’re constantly investing in our mission to educate students for global citizenship and responsible leadership. Over the next two years, Rollins is investing more than $85 million into enhancing our students’ experience and ensuring their success after graduation.

Rollins is an engine of opportunity. Everyone from respected publications to former university presidents rates Rollins a top value among the nation’s best colleges, and earlier this year Money.com named Rollins one of the nation’s best colleges for merit aid. Eighty-five percent of Rollins students receive financial aid, and each year our students have access to more than $55 million in state, federal, and institutional resources. Use our Net Price Calculator to estimate your cost of attendance at rollins.college/npc.

Rollins offers three paths to a transformative education. Rollins’ traditional full-time undergraduate day programs in the College of Liberal Arts combine top-ranked academics, a personalized approach to learning, and a vibrant student experience on one of America’s top college campuses. Rollins’ Hamilton Holt School offers bachelor’s and master’s degree programs designed to fit the busy lives of nontraditional students. Rollins’ Crummer Graduate School of Business offers three unique and highly ranked MBA programs, as well as the first accredited Executive DBA in Florida. Find your path at rollins.college/schools.
