Center for Digestive Health

Marlon Ilagan, M.D., William Ruderman, M.D., Henry Levine, M.D.,
William Mayoral, M.D., Samuel Giday, M.D.

ABOUT US: More than 50 years of combined gastrointestinal clinical excellence and caring forms the core of Center for Digestive Health. Drs. Henry Levine, William Ruderman, William Mayoral, Marlon Ilagan and Samuel Giday are at the cutting edge of digestive care delivery and technology, having trained at John Hopkins, Cleveland Clinic, Columbia, Mayo Clinic, Georgetown and Albert Einstein. **SERVICES:** Under the roof of our 20,000-square-foot clinical center, we provide a full range of endoscopic services, utilizing our own highly-skilled anesthesia team for outpatient upper endoscopy and colonoscopy. Procedures of Video Capsule technology, Bravo Esophageal PH studies and carbohydrate breath testing are provided "in office." Our infusion center delivers therapy for inflammatory bowel disease and infectious hepatitis. All of these services offer the convenience of easy scheduling without the hassle of hospital parking or the extra cost of hospital outpatient services. **WHAT SETS US APART:** Our seasoned diagnosticians, nursing staff and caring professionals. There are six offices in all four Central Florida counties to serve you. Our practice accepts every major available insurance plan in the four-county area. **INNOVATIONS:** At the forefront of gastrointestinal care, our physicians are seasoned in the newer cutting-edge technologies

of Barrx ablation for Barrett's esophagus; endoscopic ultrasonography (EUS) for definitive diagnosis and biopsy of thoracic and abdominal cavity abnormalities; and SpyGlass endoscopy of the liver and bile ducts. For inpatient care our physicians offer 24/7 services at Florida Hospital and Orlando Health. **PROFESSIONAL MEMBERSHIPS/AFFILIATIONS:** Our physicians are faculty affiliated with the University of Florida, Florida State University and the University of Central Florida, teaching medical students and residents daily. We helped formulate the gastrointestinal curriculum for the UCF medical students, who are being actively taught by our doctors to become the Central Florida physicians of tomorrow. **MORE INFORMATION:** For superior care, both present and into the future, visit us at the Center for Digestive Health, where we welcome you.
