

Delaney OB/GYN

**Stephen Snow, M.D., F.A.C.O.G., Parmelee Thatcher, M.D., F.A.C.O.G.,
Emma Fritz, M.D., F.A.C.O.G., William T. Scott, M.D., F.A.C.O.G.,
April A. Merritt, M.D., Cherise Chambers, M.D., Sarah Jones, C.N.M.**

OUR PHILOSOPHY: All patients deserve exceptional care always. We strive to individualize our treatment using current state-of-the-art medicine and to deliver this care with integrity and kindness.

OUR PRACTICE: Our senior doctors have been serving Orlando women for more than 20 years. We are creating a women's health center where patients can see their doctor and have their blood work completed. OB and GYN ultrasounds are already available and we hope to add on-site mammography and dexa scans. Our surgery center is on site for basic outpatient procedures, and we are skilled in minimally invasive surgery including the DaVinci Robot.

HONORS: Three of the practice's physicians were named to either the "Best Doctors" or "Top Doctors" lists. **CHARITABLE WORK:**

Doctors and staff of Delaney OB/GYN support local charities with an emphasis on women and children. We participate in walks for Breast Cancer and Down's Syndrome awareness. We volunteer at Grace Medical home. Each fall we help the Ivey Lane Community Center bring Christmas into homes of struggling families.
