**Not Pictured:** Donald V. Jablonski, M.D., David Jablonski, M.D., Inoel Rivera, M.D., Rakesh C. Patel, M.D., Jason Lemoine, M.D., Robert P. Weaver, M.D., Stephen A. Butler, M.D., Gary A. Kalsner, M.D., J. Christopher Webster, M.D., Javier Miller Jr., M.D. **ABOUT US:** Winter Park Urology Associates has been serving Central Florida for over 50 years. The group started in a building on Morse Boulevard in Winter Park but eventually outgrew that office and moved to its current building on Mills Avenue in Orlando, which has undergone three major renovations to accommodate practice growth. Drs. Weaver, Butler and Kalsner merged with WPUA in 2007 and established the South Orlando office. Dr. Cangiano joined in early 2010 and established the North office in Altamonte Springs, and Dr. Miller joined in July 2010 and established the East office at 7806 Lake Underhill Road. WPUA opened its Waterford Lakes Office in October 2011. **INNOVATIONS:** With Track Shack and other healthcare providers, WPUA sponsors the annual 5K Rock N' Run to help raise awareness for early diagnosis and treatment of prostate cancer and other urological diseases. Promoting healthy lifestyle choices is an emphasis at Winter Park Urology. **GREATEST ACHIEVEMENTS:** Dr. Jeff Thill, an accomplished robotics surgeon, says his greatest personal achievement is "qualifying and running in the 2011 Boston

Marathon this past April." Likewise, Dr. Jeff Brady, one of the few fellowship-trained reconstructive urologists in the state, says, "Qualifying for the 2012 Ironman 70.3 World Championship in Las Vegas is a special achievement," proving that WPUA urologists not only help patients get healthy, they stay healthy themselves. Dr. Thomas Cangiano served as Chief of Staff at Florida Hospital Altamonte in 2010 and says being selected for the Presidential Leadership Award during his tenure there "was very rewarding." Another of WPUA's top doctors this year is Dr. David Vaughan, who has served as the group's president for 10 years and also as Chairman of the Urology Departments at Florida and Winter Park Hospitals. Like many of his colleagues, Dr. Julio Gundian enjoys the friendships he has formed with patients. He says, "My best personal achievements come from preparing specialty soups for my family and friends."
